# Dan K. Gordon Landscape Architects

**D**an K. Gordon Landscape Architects is an award-winning landscape architectural firm specializing in custom residential design, horticulture, environmental permitting, and project management. Since it was established in 1996, by Dan K. Gordon, our company has developed a reputation as a premier landscape architecture firm in the New England region. Over the past two decades, we have staged numerous award-winning landscapes, with our detail-rich design work honored by the Boston Society of Landscape Architects and the Institute of Classical Architecture and Art. In addition to personal recognition, we are also

pleased to have developed ongoing relationships with architects and builders of the highest caliber, as well as numerous satisfied clients in the Boston area and on the Cape and islands.

We work closely with our clients to understand the goals for their property, and are proud of our responsiveness to client aspirations in terms of aesthetics, function, and investment. Clients deserve a custom design that is harmonious with their lifestyle and the architecture of their home; our work reveals the opportunities and value of each property.

Our team of landscape architects provides outstanding client-driven service from inception to design development through project

completion. Relying on both instinct and an inherent sense of artistry, we employ a design philosophy based on the creation of well-defined landscapes with a clear connection to place. We draw from classic solutions, which work comfortably in both traditional and contemporary designs, and create unique design work that fully explores the potential of each site. Our designs incorporate plants and hardscape that speak the vernacular language of the site and its surrounds, using both a native and an ornamental palette appropriate to each site's context.

Dan K. Gordon Landscape Architects creates timeless landscapes that enhance our clients' enjoyment of their property today and for many years to come.
